

inrals Intel - Focus on Denmark

General situation in Denmark

5.8
million

Inhabitants

US \$ 60,213

Per capita GDP (2019)

- ✓ Public debt 32.2% of GDP (2019)
- ✓ Annual GDP growth rate: 1.5% (2018), 1.8% (2019), 1.5% (2020)
- ✓ Unemployment rate: 4.1% (2021)

The Life Sciences job market in Denmark - a promising sector

- ✓ Government focus on Life Sciences: improved conditions for Life Sciences start-ups (2017); growth plan for Life Sciences (2018, renewed May 2021)
- ✓ National organization to support Danish clinical research
- ✓ Lot of SME entrepreneurship in life sciences and e-health sectors
- ✓ International firms such as Novo, Lundbeck, Leo, Coloplast, Oticon
- ✓ One of the first manufacturing countries in the world (pharmaceutical, animal & cosmetics industries); 4th in Europe in medicines export

Employment growth in the Life Science industry is +18% since 2008, as a result of an aging population and an increase in chronic therapies
